Dear sponsor,

With love and appreciation, I am glad to express my happiness with you. How are you all doing at home? I know that everything is good and fine.

My main purpose of writing you this letter is to show my thanks and appreciation to all of you for your financial and moral help you have been contributed to was my education. I and my family are very much grateful for the help you have been rendered to us. Without your help my education would have been a problem with my family in terms of financial support.

Main while, I am presently in class One (1), after through Nursery school. I will like to inform you that with your help given to me, I'm always going to be among the best pupils in school. We have just taking our class test (Class assessment) which I did very well in all the subjects. I am also ensuring you that, I will come with the best position in our class and also trying to put on high standard of improvement in some subject which I am lack or not having much understanding.

More all so, the most important thing which I am happy about is the financial support which is

the well share amongst us. We seen them and it was given by our parents and well used to was our learning process.

I am always here to Pray that God will guide all of you and your parents (families) for the help (supports) you have been given to us. Merry Christ in Advance.

Yours Faithfully,
Zainab. M. Koroma.
